

THE GIFT OF LIFE RENEWAL

Mr. Speaker,

Tremendous news from my sister, Suzanne Ross. A proud and accomplished person, she has for years been dialysing for hours daily, never complaining, always remaining upbeat.

A wonderful anonymous donor gave Sue a gift of freedom, of renewed life normality, a kidney which allows her the fullness of daily being.

This gift, a Godsend to my eternally grateful sister, is also a true blessing to her loved ones and friends who have silently prayed for this day of liberation for her.

Thank you to the medical doctors of today that perform such miracles.

Thank you to the many that give of their time to engage people to consider such a legacy of continued life, that gift of living life's fullness.

Thank you to the donors and their families who selflessly contribute this extraordinary gift, most often in moments of deep sadness. May this generosity, the giving of life renewal, be repeated many fold.
